**Sub.: Performance of Eicher buses purchased by this corporation.**

Dear Sir,

This is to inform you that the mechanical performance of the twenty nos. Eicher 10.75 H model buses is satisfactory. The rate of fuel consumption is comparatively low. The service back-up provided through your dealer network is responsive and good. We are also very happy to the representative of Eicher Motors Ltd. for their extreme support to familiarise this new Eicher Vehicle in our Transport.

Yours Faithfully,

Additional Chief Engineer,
